Introduced by Assembly Member Atkins
(Coauthors: Assembly Members Chávez, Jones, Maienschein,

(Coauthors: Senators Anderson, Bates, Block, and Hueso)

February 3, 2015

An act to amend Sections 113779, 113789, 113839, 113984, and 114266 of, to add Sections 113729.5, 113780, and 113794.3 to, and to add Chapter 12.7 (commencing with Section 114378) to Part 7 of Division 104 of, the Health and Safety Code, relating to food safety.

LEGISLATIVE COUNSEL'S DIGEST

AB 226, as amended, Atkins. Retail food safety: fishermen's markets.

Existing law, the California Retail Food Code, establishes uniform health and sanitation standards for, and provides for regulation by the State Department of Public Health of, retail food facilities and various types of food. Among other things, the code requires nonpermanent food facilities that handle nonprepackaged food to protect the food from contamination and limit the display and handling of nonprepackaged food. The code also establishes specified food safety and sanitation

requirements for certified farmers' markets governing food preparation, storage, and sampling, among other things. Under existing law, local health agencies are primarily responsible for enforcing the code. A person who violates any provision of the code is guilty of a misdemeanor, except as otherwise provided.

This bill would create a new type of nonpermanent food facility, defined as a "fishermen's market," that would be a food facility operated by a licensed commercial fisherman or an entity representing two or more California-licensed commercial fishermen or California-licensed commercial fishermen and California-registered aquaculturists, that sells only raw edible aquatic plants, raw fresh fish, or fresh frozen fish, caught by California-licensed commercial fishermen or harvested by California-registered aquaculturists, directly to consumers. The bill would establish and impose food safety and sanitation requirements upon a fishermen's market. The bill would authorize only a licensed commercial fisherman or an entity representing two or more California-licensed commercial fishermen or California-licensed commercial fishermen and California-registered aquaculturists to act as the responsible person and sole permit holder for a fishermen's market, and would require that fisherman or entity to submit a permit application and site plan, including specified information, to the enforcement agency at least 2 weeks prior to the operation of the fishermen's market. The bill would define terms for its purposes and make conforming changes.

~~This bill would incorporate additional changes to Section 113789 of the Health and Safety Code proposed by AB 143 that would become operative if both this bill and AB 143 are enacted and this bill is enacted last.~~

This bill would incorporate additional changes to Section 113789 of the Health and Safety Code, proposed by AB 143 and AB 234, that would become operative only if this bill and either or both of those bills are chaptered and become effective January 1, 2016, and this bill is chaptered last.

By imposing new enforcement requirements on local health agencies, and by creating a new crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:
